26.7	Start 2.3 miles on Air Line Rail Trail. The Air Line Rail Trail is located in eastern Connecticut, and stretches more than 50 miles from near the Connecticut River to the Massachusetts border. It is divided into two sections. The South Section starts in East Hampton and ends in Willimantic, with the Colchester Spur branching into the center of the town of Colchester. The North Section continues from Willimantic to Thompson, and connects with the Massachusetts Southern New England Trunk Line trail. Portions of the trail are still undeveloped, but under the management of the Connecticut Department of Environmental Protection and the local municipalities that the trail passes through, the trail is an important link with the past and preserves open space for the future.
